Battle Horse Financial Selects LTI Technology Solutions' ASPIRE Express to Drive Growth, Portfolio Efficiency, and Ensure Regulatory Compliance

[OMAHA, NE, November 6, 2024] – LTI Technology Solutions (LTI), a leading provider of lease and loan software solutions for the equipment finance industry, announces that Battle Horse Financial (Battle Horse) has chosen the ASPIRE Express platform to support its expanding portfolio, improve operational efficiency, and ensure compliance with regulatory standards.

Rapid business growth prompted Battle Horse to pursue a technology solution that would support the management needs of their growing portfolio, and they determined the right fit to be ASPIRE Express. The platform offers the right combination of functionality and scalability to meet their current needs, with future-ready options to enhance efficacy through modular add-ons.

“We are excited to welcome Battle Horse to the LTI family,” Tara Aasand, VP Sales and Relationship Management LTI Technology Solutions. “By adopting ASPIRE Express, Battle Horse is equipped with the tools to take their portfolio management to the next level and unlock new growth opportunities. Our configurable platform delivers both operational efficiency and the flexibility to scale as their business evolves while ensuring compliance with industry regulations.”

Streamlining Portfolio Management and Reporting

ASPIRE Express allows Battle Horse to transition from inefficient, spreadsheet-based processes to streamlined, automated workflow systems that improve accuracy and simplify reporting. With ASPIRE Express, Battle Horse can efficiently track the deals tied to funding sources and generate comprehensive reports on demand, enabling them to focus on strategic business priorities.

“Our previous tools could not scale with the growing complexity of our portfolio, and could not keep pace with our growth” said Mike Winstead, Chief Operating Officer. “ASPIRE Express ensures we have the data and reports we need in real time, helping us stay compliant with evolving regulations while freeing up resources to focus on driving business growth.”

A Future-Ready Solution with Modular Flexibility

As Battle Horse continues to grow and expand, ASPIRE Express's platform offers modular capabilities, offering the ability to configure the platform to scale and evolve with their business needs. Key features of ASPIRE Express' include options for process automation, such as charging interim rent through an add-on module, which ensures long-term operational efficiency.

"Our CFO, Lauren Lindsey with extensive experience as a bank auditor, was especially impressed with ASPIRE Express's sub-ledger system for tracking all lease accounting activities," said Mike Winstead, Chief Operating Officer. "The platform provides us with the transparency and accuracy we need to meet strict regulatory standards while streamlining financial reporting."
